### Meet Emma!

Emma has been with the WAVES since DAY 1 as a player, second year's captain and this years mentor for new players!

Hello, my name is Emma! I am 34 years old, a mother of 2 beautiful humans, and I recently picked up an unhealthy chicken farming habit. I have lived in the PNW my entire life and am still in awe of it's beauty. I joined the Whatcom Waves 3 seasons ago, after Suni told me about it, and have continued to return each season since. I believe in the power of sports, and the magic of women. I am so grateful to have gained this experience! My favorite memory was in the beginning of season 1 (this sounds like a show ) when we went south for a tournament that I believe none of us knew what we were getting into. When I say we lost, we lost lost. Hahaha... but our spirit and connection only grew as we continued our losing streak throughout the night. That's when I knew I was a part of something more than soccer. After our last "spanking" we realized the keys were locked in our rental van!! The teamwork and the tenacity to get those keys worked quick and we were on the road home. To anyone hesitant to join or this is a new thought, I hope to see you on the field!
